ABOUT THE ULTRAMARATHON

Started in 2020, the UltraMARAthon is a 50km single-day foot race through the conservancies of the northern Maasai Mara ecosystem in Kenya. The race, run either as an individual or as part of a relay team, takes participants through several conservancies, giving them a unique sporting experience within one of Africa's jewels.

The proceeds from the event go directly to supporting initiatives in the region aimed at protecting both wildlife and the environment and enhancing the lives of the community members who live there.

THE CAUSE

The UltraMARAthon was founded in response to the COVID-19 pandemic, which highlighted the vulnerability of conservation efforts due to the sudden halt in tourism. This vital ecosystem serves as a crucial buffer for the Maasai Mara Reserve, yet its dependence on tourism-based revenue makes it susceptible to economic disruptions.

The UltraMARAthon helps provide funding to support the welfare and daily operations of conservancy rangers while also helping to sustain a healthcare clinic, ensuring both people and wildlife can thrive.
